

The Kennedy Suite

102, 104, 106, 108

The Kennedy suite has window walls both upstairs and down, in the living room and both bedrooms, to take full advantage of the natural light and the view of your own richly landscaped private garden.

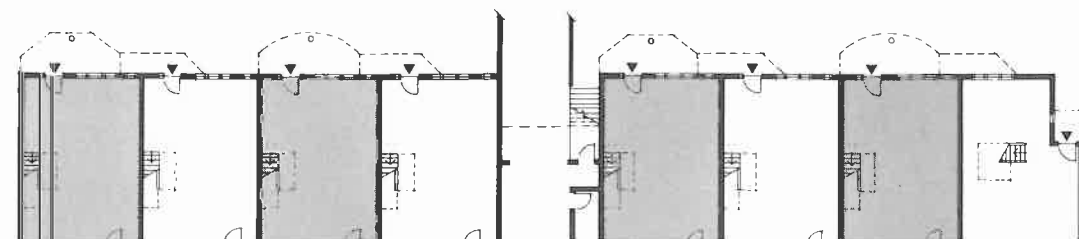

Downstairs, the open floorplan brings the light and the view through the living room, past the double fireplace, through the dining room and over a half-wall into the large family kitchen. There's a powder room conveniently located at the bottom of the stairs, a coat closet at the front door and another coat closet in the small foyer off the kitchen. This foyer opens directly into the parking garage.

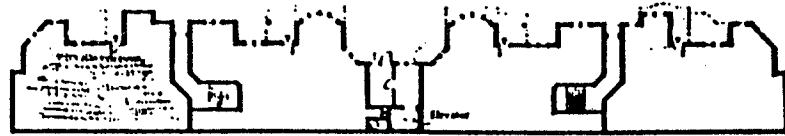

Upstairs are two full bathrooms — the main bathroom is off the hall and the other is in the master suite. The master bathroom includes a separate shower, and is reached through a large walk-through closet. The second bedroom has its own special treat — a private deck overlooking the garden.
